

Angela Gerrard is an emerging ceramic artist, who has just completed her Bachelor of Visual Art studies at Federation University, Arts Academy. She has been developing her practice and engaging with, contributing to, and supporting our growing UNESCO City of Craft and Folk Art community.

The university is happy to support Angela's application for an Australian Council for the Arts grant. Federation University will willingly fire Angela's larger scaled sculptured works for her project "sculpt with porcelain and patterns".

Yours Sincerely

Claire Blake
Technical Officer – Creative Arts
